

Welcome back to term 6!

Last term ended on a high for Y5 and Y6 who had the exciting opportunity of visiting Sky Studios on the last day of term. The experience of putting together a news

report from start to finish is something that the pupils will remember for a long time. Bea and Charlie (above) read from an autocue and proved to be excellent at delivering the news.

Our younger pupils started their topic on animals with a visit from a vet on Tuesday. They learnt many facts about looking after different pets from dogs to tortoises.

Great feats of design and engineering took place in the Year 5 and Year 6 Classrooms on Wednesday when the children took part in workshops organised by National Grid. The children were set several

challenges and here we can see rocket designs being tested for height and efficiency (above) and cars (right) which were tested for safety. The children firstly had to work out the cost of their cars and then test the safety features using a real egg in the driving seat. Not all of the eggs smashed! It was a superb learning experience in all aspects of design for our older pupils.
