

Wren's News

WB 9th October

This week we have been learning about diversity. We have been learning about how everyone is different: hair colour, eye colour, skin colour, our families, the languages we speak, the games we like to play and food we like to eat. We are all different and that is what makes us all so special.

We found the England on the globe and then on our map. We looked at the land and the sea and spoke about if we had been anywhere different.

We went searching for insects and talked about how we can be kind and care for nature.

We have practiced writing our name, done lots of cutting and fine motor patterns too!

This week in phonics we have been learning the sound 'ss'- two letters making 1 sound. The rest of the week we have been reviewing all of the sounds we have learnt this term and next week we will be seeing how many we can remember.

This week in maths we have been counting marbles into the jar and coins into the tin. We have been counting a number of objects and finding 1 more. We have also started to look at doubling amounts to 5.

After half term we shall start coming into school in the morning from the main gate. It opens at the same time of 8.45 and will be closed at 9.00. There will always be a Staff member from Wrens on the gate, to help bring in any that still need to help.

After half term your children will need to choose whether they are having school dinner or packed lunch. (Some have been bringing both.) But as most are now eating their school dinner and you are aware the days they don't, we are going to ask that no other snacks/packed lunches are brought in on the days they are having school dinners. Thank you.
