

This week we have been learning about vets and pets. We have been talking about what animals need to be healthy and looked after. We have talked about the job of the vets and how they can help when your pet is sick. We have been comparing the weight of different animals, looking at coins to pay for the vets bills and writing labels for different pets.

We also had some pets come in to class to visit.

This week in phonics we have been learning the sound: ure (pure) er (litter) and ow (snow)

We have been learning the tricky words: ball and tall.

This week in maths we have been exploring 2D shapes, making new shapes with other shapes, as well as using lolly sticks to create 2D shapes. We have also been using red and blue counters and a tens frame to explore different ways of making 10.

Following on from last week we were very lucky to have a first responder come in to talk to us, he showed us his vehicle, some of the equipment and how to put someone into the recovery position. We also had some pets into visit, Mrs Duhig brought in one of her dogs and I brought in my tortoise.

Friday 2ND February- Parent Celebration assembly. Come and join us after drop off to celebrate all the children's achievements.
