

This week has been extremely busy, the beginning of the week was exciting as we all made our Three Little Pig houses. The children enjoyed this opportunity and it was amazing to see their think bubbles as they sourced their own materials and their own equipment. The process is always far more important than the outcome, but I think you will agree we had some brilliant outcomes too.

The children have also made their own 'Beware of the Big Bad Wolf' posters, used their phonic knowledge to write word lists of equipment that the pigs needed to build their houses, and used their physical skills to cut out clothes for the pigs. They always work so hard and put their full effort into their activities, it is so nice to see how much they enjoy them.

The children have been learning how to roll a ball accurately in Physical Education this week. This involved learning 3 skills, aim, bending low and rolling. We played a game called Battleships and it was a lot of fun.

Next week on Thursday we plan to be going swimming, please follow the correct **swimming kit rules**, all-in-one costumes, tight swimming trunks not loose shorts. Hair must be tied up and no earrings. If the children want to wear goggles the children must be able to apply the fitting of these themselves, we are not allowed to help.

It will be such a great experience and please reassure your child that Mrs Potter will be in the pool with them

Next week we are learning about Goldilocks and the Three Bears. We have already begun talking about safety under the PSHE side of the story, and we will be linking the learning to healthy and unhealthy breakfasts. The children will have a super breakfast treat on Tuesday to support their thinking. We will be practising out watercolour painting techniques by painting pictures of the woods. Over the weekend if your child has the opportunity to read the story or watch different versions on You Tube then this will support their thinking whilst learning next week.

Have a great bank holiday weekend and see you on Tuesday.
