

# Owls class (y2)

Friday 23<sup>rd</sup> April 2021: This week we have been...

English

Looking at the book 'How to find Gold' by Viviane Schwarz. We have made lots of predictions using the illustrations and then we wrote character descriptions of the 2 characters (Anna and Crocodile), wrote instructions of how to find gold and started to write our own story.

Maths

## Place Value:

We have been revising place value in numbers and thinking about how many tens and ones make a number. We have also been looking at the properties of number -such as odd and even numbers - and discussing how we know if a number is a multiple of 10 and 2.

Write even or odd beside each number:

a) 368

b) 492

c) 661

How did you know the answer?

Fill in the missing numbers.

$$5 + \underline{\quad} = 65$$

$$30 = 37 - \underline{\quad}$$

$$10 + \underline{\quad} = 61$$
