

# YEAR 6

## Term 1 Week 8

<b>Date: Friday 23<sup>rd</sup> October 2020</b>	<b>This week...</b>
In <b>Science (in place of English for this week)</b> we...	<ul style="list-style-type: none"><li>• Recapped the stages of human development, created timelines and produced stop motion animations to show the stages</li><li>• Learnt about the germination period of different mammals, wrote up an investigation and presented our data in Excel graphs</li><li>• Revised parts of a flower, learnt about germination and the life cycle of plants</li><li>• Created storybooks to teach younger children about dispersal</li></ul>
In <b>Maths</b> we...	<ul style="list-style-type: none"><li>• Had an arithmetic quiz</li><li>• Practised plotting and writing coordinates</li></ul>
In <b>other curriculum areas...</b>	<ul style="list-style-type: none"><li>• Benchball</li><li>• Swimming</li><li>• Anthropomorphic art</li><li>• Making flower beds</li><li>• Planting bulbs</li><li>• Free exploration in Computing</li></ul>

### Homework (optional)

Our topic for next term will be World War II. I am setting a little research project on Seesaw for half term, which involves the children finding out about a family member who was around during the war. If this is not possible, then they are welcome to find out about anyone. I won't be asking for anymore than a little bit of information on a page, to be shared with the class in our first History lesson.

It's been a tough old 8 weeks, but we made it! Enjoy your week and speak soon.

Mr. J
