This week's News

Despite the rainy weather on Tuesday, the Y4 forest school group took part in activities in the wild area at the back of the outdoor classroom. This week, the children created art/models from nature. Clara has used nails, string and wood to make a heart picture whilst Erin has used a teasel and mud to make her hedgehog.

Yesterday, Canterbury College students visited Y6 to show them how to make objects from a tiny light fob to a plastic cog, using the 3D printer. This is the first time that a 3D printer has been used in school and we are very grateful to the college students for teaching us. We are hoping that other classes will have sessions using a 3D printer soon.

This Week's Awards
